Special provision meaning

Special Provisions, the use of clean crushed rock may be specified for certain purposes.,"Materials to be used for the work and not included in this section shall be described and specified in the Special Provisions.,"ARTICLE 49. WHOLE AGREEMENTThe General Provisions, Special Provisions, and Attachments, as provided herein, constitute the complete Agreement ("Agreement" between the parties hereto, and supersedes any and all oral and written agreements between the parties relating to matters herein.,"Unless limited by the Special Provisions, these basic units may be divided into optional units if, for each optional unit you meet all the conditions of this section or if a written agreement to such division exists.,"This Agreement, together with the Notice to Contractors, the Contractor's Proposal, the Plans, Specifications and Special Provisions and the Payment and Performance Bonds form the Contract, and said documents incorporated herein by reference become as fully a part of the Contract as if hereto attached or herein set forth in full.,"Sampling, testing and laboratory methods shall be as required by the Department's Standard Specifications, Supplemental Specifications or as modified by the Special Provisions of the Construction Contract.,"Much of the actual supervision and control of the project may be by subordinate representatives designated as "Engineer." However, whenever in these Specifications, Plans or Special Provisions, the Director is designated as the authority in any matter, it will mean only the Director and not subordinates working under the Director's supervision.,"Section 3(a)– Specify that an insured may select only one price election for all the apples in the county insured under the policy, unless the Special Provisions provide different price elections by type, in which case the insured may select one price election for each apple type designated in the Special Provisions.,"Production on acreage that is bypassed sweet corn unless allowed by the Special Provisions and unless the acreage was bypassed due to an you provide written approval from the processor by the insured cause of loss which resulted in acreage reporting date that it will accept the production production which would not be acceptable from the late planted acres when it is expected to be under the terms of the processor contract.,"Proposer will place this information along with the permit(s) mitigation requirements in an appendix to the Special Provisions.],"id":"special-provisions"},"title":"Special Provisions"},"groups":{"hash":"ae9a16b34f9a134d80ebf9e633b0dc77","snippet":"means additions and revisions to the standard and sup- plemental specifications applicable to an individual Times, Sunday Times Others make special provision for those with particular educational needs. Times, Sunday Times This special provision expires after the year 2000. Christianity Today Special provision must be made for them, but the broad outlines of the reforms are formed. Times, Sunday Times Education law even had to be tweaked to allow the university to offer it to all schools, with a special provision written into a 2005 act. Times, Sunday Times § 172.102 Special provisions. (a) General. When column 7 of the § 172.101 table refers to a special provision for a hazardous material, the meaning and requirements of that provision are as set forth in this section. When a special provision specifies packaging or packaging requirements - (1) The special provision is in addition to the standard requirements for all packagings prescribed in § 173.24 of this subchapter and any other applicable packaging requirements in subparts A and B of part 173 of this subchapter; and (2) To the extent a special provision imposes limitations or additional requirements on the packaging provisions set forth in column 8 of the § 172.101 table, packagings must conform to the requirements of the special provision. (b) Description of codes for special provisions. Special provisions contain packaging provisions, prohibitions, exceptions from requirements for particular quantities or forms of materials and requirements or prohibitions applicable to specific modes of transportation, as follows: (1) A code consisting only of numbers (for example, "11") is multi-modal in application and may apply to bulk and non-bulk packagings. (2) A code containing the letter "A" refers to a special provision which applies only to transportation by aircraft. (3) A code containing the letter "B" refers to a special provision that applies only to bulk packaging requirements. (4) A code containing the letters "B" or "IP" refers to a special provision that applies only to transportation in IBCs. (5) A code containing the letters "UN" or "IM" refers to a special provision which applies only to transportation in UN or IM Specification portable tanks. (6) A code containing the letters "TP" refers to a portable tank special provision for UN or IM Specification portable tanks that is in addition to those provided by the portable tank instructions or the requirements in part 178 of this subchapter. (7) A code containing the letter "W" refers to a special provision that applies only to transportation by water. (c) Tables of special provisions. The following tables list, and set forth the requirements of, the special provisions referred to in column 7 of the § 172.101 table. (1) Numeric provisions. These provisions are multi-modal and apply to bulk and non-bulk packagings: (2) "A" codes. These provisions apply only to transportation by aircraft. (3) "B" codes. These provisions apply only to bulk packagings. Except as otherwise provided in this subchapter, these special provisions do not apply to UN portable tanks or IBCs: (4) IB Codes and IP Codes. These provisions apply only to transportation in IBCs and Large Packagings. Table 1 authorizes IBCs for specific proper shipping names through the use of IB Codes assigned in the § 172.101 table of this subchapter. Table 2 defines IP Codes on the use of IBCs that are assigned to specific commodities in the § 172.101 table of this subchapter. Table 3 authorizes Large Packagings for specific proper shipping names through the use of IB Codes assigned in the § 172.101 table of this subchapter. Large Packagings are authorized for the Packing Group III entries of specific proper shipping names when either special provision IB3 or IB8 is assigned to that entry in the § 172.101 Table. When no IB code is assigned in the § 172.101 Table for a specific proper shipping name, or in § 173.185 or § 173.225(e) Organic Peroxide Table for Type F organic peroxides, use of an IBC or Large Packaging for the material may be authorized when approved by the Associate Administrator. The letter "Z" shown in the marking code for composite IBCs must be replaced with a capital code letter designation found in § 178.702(a)(2) of this subchapter to specify the material used for the other packaging. Tables 1, 2, and 3 follow: IBC code Authorized IBCs IB1 Authorized IBCs: Metal (31A, 31B and 31N). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 °C (1.1 bar at 122 °F), or 130 kPa at 55 °C (1.3 bar at 131 °F) are authorized. IB2 Authorized IBCs: Metal (31A, 31B and 31N); Rigid plastics (31H1 and 31H2). Composite (31HZ1). Additional Requirement: Only liquids with a vapor pressure less than or equal to 110 kPa at 50 °C (1.1 bar at 122 °F), or 130 kPa at 55 °C (1.3 bar at 131 °F) are authorized, except for UN2672 (also see special provision IP8 in Table 2 for UN2672). IB4 Authorized IBCs: Metal (11A, 11B, 11N, 21A, 21B, 21N, 31A, 31B and 31N). IB5 Authorized IBCs: Metal (11A, 11B, 11N, 21A, 21B, 21N, 31A, 31B and 31N); Rigid plastics (11H1, 11H2, 21H1, 21H2, 31H1 and 31H2); Composite (11HZ1, 11HZ2, 21HZ1, 21HZ2 and 31HZ1). Additional Requirement: Composite IBCs 11H22 and 21H22 may not be used when the hazardous materials being transported may become liquid during transport. IB7 Authorized IBCs: Metal (11A, 11B, 11N, 21A, 21B, 21N, 31A, 31B and 31N); Rigid plastics (11H1, 11H2, 21H1, 21H2, 31H1 and 31H2); Composite (11HZ1, 11HZ2, 21HZ1, 21HZ2 and 31HZ1); Wooden (11C, 11D and 11F). Additional Requirement: Liners of wooden IBCs must be silt-proof. IB8 Authorized IBCs: Metal (11A, 11B, 11N, 21A, 21B, 21N, 31A, 31B and 31N); Rigid plastics (11H1, 11H2, 21H1, 21H2, 31H1 and 31H2); Composite (11HZ1, 11HZ2, 21HZ1, 21HZ2 and 31HZ1); Fiberboard (11G); Wooden (11C, 11D and 11F); Flexible (13H1, 13H2, 13H3, 13H4, 13H5, 13L1, 13L2, 13L3, 13L4, 13M1 or 13M2). IB9 IBCs are only authorized if approved by the Associate Administrator. IP code IP1 IBCs must be packed in closed freight containers or a closed transport vehicle. IP2 When IBCs other than metal or rigid plastics IBCs are used, they must be offered for transportation in a closed freight container or a closed transport vehicle. IP3 Flexible IBCs must be silt-proof and water-resistant or must be fitted with a silt-proof and water-resistant liner. IP4 Flexible, fiberboard or wooden IBCs must be silt-proof and water-resistant or be fitted with a silt-proof and water-resistant liner. IP5 IBCs must have a device to allow venting. The inlet to the venting device must be located in the vapor space of the IBC under maximum filling conditions. IP6 Non-specification bulk bins are authorized. IP7 For UN identification numbers 1327, 1363, 1364, 1365, 1386, 1841, 2211, 2217, 2793 and 3314, IBCs are not required to meet the IBC performance tests specified in part 178, subpart N, of this subchapter. IP8 Ammonia solutions may be transported in rigid or composite plastic IBCs (31H1, 31H2 and 31HZ1) that have successfully passed, without leakage or permanent deformation, the hydrostatic test specified in § 178.814 of this subchapter at a test pressure that is not less than 1.5 times the vapor pressure of the contents at 55 °C (131 °F). IP13 Transportation by vessel in IBCs is prohibited. IP14 Air must be eliminated from the vapor space by nitrogen or other means. IP15 For UN2031 with more than 55% nitric acid, rigid plastic IBCs and composite IBCs with a rigid plastic inner receptacle are authorized for two years from the date of IBC manufacture. IP16 IBCs of type 31A and 31N are only authorized if approved by the Associate Administrator. IP19 For UN identification numbers 3531, 3532, 3533, and 3534, IBCs must be designed and constructed to permit the release of gas or vapor to prevent a build-up of pressure that could rupture the IBCs in the event of loss of stabilization. IP20 Dry sodium cyanide or potassium cyanide is also permitted in siltproof, water-resistant, fiberboard IBCs when transported in closed freight containers or transport vehicles. IP21 When transported by vessel, flexible, fiberboard or wooden IBCs must be silt-proof and water-resistant or be fitted with a silt-proof and water-resistant liner. IB3 Authorized Large Packagings (LIQUIDS) (PG III materials only) 2 Inner packagings: Large outer packagings: Glass 10 liter steel (50A). Plastics 30 liter aluminum (50B). Metal 40 liter metal other than steel or aluminum (50N). Paper 50 kg flexible plastics (51H). 1 Fiber 50 kg rigid plastics (50H). natural wood (50C). plywood (50D). reconstituted wood (50F). rigid fiberboard (50G). IB8 Authorized Large Packagings (SOLIDS) (PG III materials only) 2 Inner packagings: Large outer packagings: Glass 10 liter steel (50A). Plastics 50 kg aluminum (50B). Metal 50 kg metal other than steel or aluminum (50N). Paper 50 kg flexible plastics (51H). 1 Fiber 50 kg rigid plastics (50H). natural wood (50C). plywood (50D). reconstituted wood (50F). rigid fiberboard (50G). (5) "N" codes. These provisions apply only to non-bulk packagings: (6) "R" codes. These provisions apply only to transportation by rail. R1 A person who offers for transportation tank cars containing sulfur, molten or residue of sulfur, molten may reference the Sulfur Institute's, "Molten Sulphur Rail Tank Car Guidance document" (see § 171.7 of this subchapter) to identify tank cars that may pose a risk in transportation due to the accumulation of formed, solid sulfur on the outside of the tank. (7) "T" codes. (i) These provisions apply to the transportation of hazardous materials in UN portable tanks. Portable tank instructions specify the requirements applicable to a portable tank when used for the transportation of a specific hazardous material. These requirements must be met in addition to the design and construction specifications in part 178 of this subchapter. Portable tank instructions T1 through T22 specify the applicable minimum test pressure, the minimum shell thickness (in reference steel), bottom opening requirements and pressure relief requirements. Liquefied compressed gases are assigned to portable tank instruction T50. Refrigerated liquefied gases that are authorized to be transported in portable tanks are specified in tank instruction T75. (ii) The following table specifies the portable tank requirements applicable to "T" Codes T1 through T22. Column 1 specifies the "T" Code. Column 2 specifies the minimum test pressure, in bar (1 bar = 14.5 psig), at which the periodic hydrostatic testing required by § 180.605 of this subchapter must be conducted. Column 3 specifies the section reference for minimum shell thickness value. Column 4 specifies the applicability of § 178.275(g)(3) of this subchapter for the pressure relief devices. When the word "Normal" is indicated, § 178.275(g)(3) of this subchapter does not apply. Column 5 references applicable requirements for bottom openings in part 178 of this subchapter. "Prohibited" means bottom openings are prohibited, and "Prohibited for liquids" means bottom openings are authorized for solid material only. The table follows: (iii) T50 When portable tank instruction T50 is indicated in Column (7) of the § 172.101 Hazardous Materials Table, the applicable liquefied compressed gas and chemical under pressure descriptions are authorized to be transported in portable tanks in accordance with the requirements of § 173.313 of this subchapter. (iv) T75. When portable tank instruction T75 is referenced in Column (7) of the § 172.101 Table, the applicable refrigerated liquefied gases are authorized to be transported in portable tanks in accordance with the requirements of § 178.277 of this subchapter. (v) UN and IM portable tank codes/special provisions. When a specific portable tank instruction is specified by a "T" Code in Column (7) of the § 172.101 Table for a specific hazardous material, a specification portable tank conforming to an alternative tank instruction may be used if: (A) The alternative portable tank has a higher or equivalent test pressure (for example, 4 bar when 2.65 bar is specified); (B) The alternative portable tank has greater or equivalent wall thickness (for example, 10 mm when 6 mm is specified); (C) The alternative portable tank has a pressure relief device as specified in the "T" Code. If a frangible disc is required in series with the reclosing pressure relief device for the specified portable tank, the alternative portable tank must be fitted with a frangible disc in series with the reclosing pressure relief device; and (D) With regard to bottom openings - (1) When two effective means are specified, the alternative portable tank is fitted with bottom openings having two or three effective means of closure or (2) When three effective means are specified, the portable tank has no bottom openings or three effective means of closure; or (3) When no bottom openings are authorized, the alternative portable tank must not have bottom openings. (vi) Except when an organic peroxide is authorized under § 173.225(g), if a hazardous material is not assigned a portable tank "T" Code, the hazardous material may not be transported in a portable tank unless approved by the Associate Administrator. (8) "TP" codes. (i) These provisions apply to the transportation of hazardous materials in IM and UN Specification portable tanks. Portable tank special provisions are assigned to certain hazardous materials to specify requirements that are in addition to those provided by the portable tank instructions or the requirements in part 178 of this subchapter. Portable tank special provisions are designated with the abbreviation TP (tank provision) and are assigned to specific hazardous materials in Column (7) of the § 172.101 Table. (ii) The following is a list of the portable tank special provisions: Concentration of hydrogen per peroxide solution Total 1 52% or less 11 Over 52%, but not greater than 60% 22 Over 60%, but not greater than 72% 32 (9) "W" codes. These provisions apply only to transportation by water: [Amdt. 172-123, 55 FR 52582, Dec. 21, 1990] Editorial Note: For Federal Register citations affecting § 172.102, see the List of CFR Sections Affected, which appears in the Finding Aids section of the printed volume and at www.govinfo.gov. Page 2 § 24.108 Donations. An owner whose real property is being acquired may, after being fully informed by the Agency of the right to receive just compensation for such property, donate such property or any part thereof, any interest therein, or any compensation paid therefore, to the Agency as such owner shall determine. The Agency is responsible for ensuring that an appraisal of the real property is obtained unless the owner releases the Agency from such obligation, except as provided in § 24.102(c)(2).
